Subject Index, 1968

Accounting Systems

A Computer Programming Approach to the Design of Accounting Systems, R. L. Mathews, July-August, p. 32.

Toward an Input-Oriented Chart of Accounts, John W. Wagner, September-October, p. 44.

Accounts Receivable Control

Attacking a Special Problem in Accounts Receivable, Edward S. Corwin, May-June, p. 27.

Freight Payment: Cheaper by the Bank, Sidney W. Hall, March-April, p. 45.

Better Management Control in the Professional Office, Reginald L. Jones and H. George Trentin, March-April, p. 23.

Centralizing Data Processing in a Two-Location Hospital, Ernest W. Kosty, November-December, p. 51.

Auditing

New Generation EDP Control Considerations, Robert F. Moloney, March-April, p. 15.

AICPA Holds Third Computer Conference, Staff Report, Part 1, July-August, p. 49, and Part 2, September-October, p. 52.

Banking Management

Improving the Bank Profit Picture, Edwin T. Boyle, January-February, p. 47.

Bayesian Analysis

Statistical Decision Theory, Benny R. Copeland, May-June, p. 45.

Bid Analysis

Analysis of Competitive Bids, W. N. Smith and J. R. McCreight, May-June, p. 40.

The Economics of Using Substitutes or Synthetics as Raw Materials, Robert D. Zemnickas, September-October, p. 33.

Budgeting

Planning for Profitability, Richard H. Bertholdt, January-February, p. 17.

Executive Controls, Louis Fried, May-June, p. 17.

Better Management Control in the Professional Office, Reginald L. Jones and H. George Trentin, March-April, p. 23.

Capital Budgeting

Planning for Profitability, Richard H. Bertholdt, January-February, p. 17.

To Buy or to Make?, Richard M. Burton and H. Peter Holzer, July-August, p. 26.

Profit Performance Concepts and the Product Manager, James D. Wilkinson, July-August, p. 17.

Cash Management

Improving the Bank Profit Picture, Edwin T. Boyle, January-February, p. 47.

Better Management Control in the Professional Office, Reginald L. Jones and H. George Trentin, March-April, p. 23.

Decision Models for the Acquisition of Treasury Stock, Edward J. Mock and Donald Hart Shuckett, March-April, p. 49.

Consulting

See Management Services

Control Systems

Planning for Profitability, Richard H. Bertholdt, January-February, p. 17.

Executive Controls, Louis Fried, May-June, p. 17.

Better Management Control in the Professional Office, Reginald L. Jones and H. George Trentin, March-April, p. 23.

Is PERT/Cost Dead?, Peter P. Schoderbek, November-December, p. 43.

Corporate Objectives

Planning Corporate Expansion, David F. Linowes, September-October, p. 15.

Cost Analysis

Planning for Profitability, Richard H. Bertholdt, January-February, p. 17.

To Buy or to Make?, Richard M. Burton and H. Peter Holzer, July-August, p. 26.

Direct Costing in Pricing: A Critical Reappraisal, Richard J. L. Herson and Ronald S. Hertz, March-April, p. 35.

Strengthening Control of Physical Distribution Costs, Ronald J. Lewis, January-February, p. 37.

Analysis of Competitive Bids, W. N. Smith and J. R. McCreight, May-June, p. 40.

The Use of Simulation to Solve a Queueing Problem, Richard M. Story, January-February, p. 58.

The Economics of Using Substitutes or Synthetics as Raw Ma-

terials, Robert D. Zemnickas, September-October, p. 33.

Cost Control

Multi-Programing Computer Evaluation and Management, Charles E. Carlson and Philip C. Semprevivo, September-October, p. 39.

Better Management Control in the Professional Office, Reginald L. Jones and H. George Trentin, March-April, p. 23.

Strengthening Control of Physical Distribution Costs, Ronald J. Lewis, January-February, p. 37.

Is PERT/Cost Dead?, Peter P. Schoderbek, November-December, p. 43.

Computerized Control of Travel Expenses, Michael R. Tyran, May-June, p. 32.

Cost Estimating

Better Management Control in the Professional Office, Reginald L. Jones and H. George Trentin, March-April, p. 23.

The Economics of Using Substitutes or Synthetics as Raw Materials, Robert D. Zemnickas, September-October, p. 33.

Creativity

Creativity in Management, Sherman Tingey and Van R. Vibber, July-August, p. 44.

Credit Management

Attacking a Special Problem in Accounts Receivable, Edward S. Corwin, May-June, p. 27.

Decision Theory

Statistical Decision Theory, Benny R. Copeland, May-June, p. 45.

Direct Costing

Direct Costing in Pricing: A Critical Reappraisal, Richard J. L. Herson and Ronald S. Hertz, March-April, p. 35.

Electronic Data Processing

To Buy or to Make?, Richard M. Burton and H. Peter Holzer, July-August, p. 26.

Multi-Programing Computer Evaluation and Management, Charles E. Carlson and Philip C. Semprevivo, September-October, p. 39.

Attacking a Special Problem in Accounts Receivable, Edward S. Corwin, May-June, p. 27.

Computer Time Sharing for the CPA, Felix Kaufman, November-December, p. 17.

Centralizing Data Processing in a Two-Location Hospital, Ernest W. Kosty, November-December, p. 51.

A Computer Programming Approach to the Design of Accounting Systems, R. L. Mathews, July-August, p. 32.

New Generation EDP Control Considerations, Robert F. Moloney, March-April, p. 15.

Pitfalls in Planning an EDP Installation, Michael R. Moore, September-October, p. 25.

Better Patient Care — Through Electronics, Robert M. Smith, May-June, p. 52.

Analysis of Competitive Bids, W. N. Smith and J. R. McCreight, May-June, p. 40.

AICPA Holds Third Computer Conference, Staff Report, Part 1, July-August, p. 49, and Part 2, September-October, p. 52.

Computerized Control of Travel Expenses, Michael R. Tyran, May-June, p. 32.

Toward an Input-Oriented Chart of Accounts, John W. Wagner, September-October, p. 44.

Forecasting

Planning for Profitability, Richard H. Bertholdt, January-February, p. 17.

The Delphi Technique: Implementation in the Corporate Environment, Robert M. Campbell and David Hitchin, November-December, p. 37.

Freight Payment Plans

Freight Payment: Cheaper by the Bank, Sidney W. Hall, March-April, p. 45.

Hospital Management

Centralizing Data Processing in a Two-Location Hospital, Ernest W. Kosty, November-December, p. 51.

Better Patient Care — Through Electronics, Robert M. Smith, May-June, p. 52.

Human Relations

Planning Corporate Expansion, David F. Linowes, September-October, p. 15.

Pitfalls in Planning an EDP Installation, Michael R. Moore, September-October, p. 25.

Creativity in Management, Sherman Tingey and Van R. Vibber, July-August, p. 44.

Information Systems

Planning for Profitability, Richard H. Bertholdt, January-February, p. 17.

Improving the Bank Profit Picture, Edwin T. Boyle, January-February, p. 47.

A Computer Programming Approach to the Design of Accounting Systems, R. L. Mathews, July-August, p. 32.

Pitfalls in Planning an EDP Installation, Michael R. Moore, September-October, p. 25.

Toward an Input-Oriented Chart of Accounts, John W. Wagner, September-October, p. 44.

Internal Control

New Generation EDP Control

Considerations, Robert F. Moloney, March-April, p. 15.

AICPA Holds Third Computer Conference, Staff Report, Part 1, July-August, p. 49, and Part 2, September-October, p. 52.

Linear Programing

To Buy or to Make?, Richard M. Burton and H. Peter Holzer, July-August, p. 26.

Make or Buy Analysis

To Buy or to Make?, Richard M. Burton and H. Peter Holzer, July-August, p. 26.

Management of Professional Firms

Better Management Control in the Professional Office, Reginald L. Jones and H. George Trentin, March-April, p. 23.

Management Science

To Buy or to Make?, Richard M. Burton and H. Peter Holzer, July-August, p. 26.

The Delphi Technique: Implementation in the Corporate Environment, Robert M. Campbell and David Hitchin, November-December, p. 37.

Statistical Decision Theory, Benny R. Copeland, May-June, p. 45.

Is PERT/Cost Dead?, Peter P. Schoderbek, November-December, p. 43.

AICPA Holds Third Computer Conference, Staff Repart, Part 2, September-October, p. 52.

The Use of Simulation to Solve a Queueing Problem, Richard M. Story, January-February, p. 58.

The Economics of Using Substitutes or Synthetics as Raw Materials, Robert D. Zemnickas, September-October, p. 33.

Management Services

Computer Time Sharing for the CPA, Felix Kaufman, November-December, p. 17.

AICPA Holds Third Computer Conference, Staff Report, Part 1, July-August, p. 49, and Part 2, September-October, p. 52.

Manpower Management

Better Management Control in the Professional Office, Reginald L. Jones and H. George Trentin, March-April, p. 23.

Mathematical Programing

To Buy or to Make?, Richard M. Burton and H. Peter Holzer, July-August, p. 26.

Matrix Accounting

A Computer Programming Approach to the Design of Accounting Systems, R. L. Mathews, July-August, p. 32.

Mergers and Acquisitions

Planning Corporate Expansion, David F. Linowes, September-October, p. 15.

Decision Models for the Acquisition of Treasury Stock, Edward J. Mock and Donald Hart Shuckett, March-April, p. 49.

Monte Carlo Method

The Use of Simulation to Solve a Queueing Problem, Richard M. Story, January-February, p. 58.

Multi-programing

Multi-Programing Computer Evaluation and Management, Charles E. Carlson and Philip C. Semprevivo, September-October, p. 39.

Computer Time Sharing for the CPA, Felix Kaufman, November-December, p. 17.

Operations Research

See Management Science

Performance Measurement

Improving the Bank Profit Picture, Edwin T. Boyle, January-February, p. 47.

Multi-Programing Computer Evaluation and Management, Charles E. Carlson and Philip C. Semprevivo, September-October, p. 39.

Executive Controls, Louis Fried, May-June, p. 17.

Profit Performance Concepts and the Product Manager, James D. Wilkinson, July-August, p. 17.

Measurement of Sales Growth, Eugene L. Zieha, November-December, p. 30.

PERT-CPM

Is PERT/Cost Dead?, Peter P. Schoderbek, November-December, p. 43.

The Economics of Using Substitutes or Synthetics as Raw Materials, Robert D. Zemnickas, September-October, p. 33.

Physical Distribution

Strengthening Control of Physical Distribution Costs, Ronald J. Lewis, January-February, p. 37.

Planning

Planning for Profitability, Richard H. Bertholdt, January-February, p. 17.

The Delphi Technique: Implementation in the Corporate Environment, Robert M. Campbell and David Hitchin, November-December, p. 37.

Executive Controls, Louis Fried, May-June, p. 17.

Planning Corporate Expansion, David F. Linowes, September-October, p. 15.

Pitfalls in Planning an EDP Installation, Michael R. Moore, September-October, p. 25.

Pricing

Planning for Profitability, Richard H. Bertholdt, January-February, p. 17.

Direct Costing in Pricing: A Critical Reappraisal, Richard J. L.

Herson and Ronald S. Hertz, March-April, p. 35.

Better Management Control in the Professional Office, Reginald L. Jones and H. George Trentin, March-April, p. 23.

Probability Analysis

Statistical Decision Theory, Benny R. Copeland, May-June, p. 45.

Product Management

Profit Performance Concepts and the Product Manager, James D. Wilkinson, July-August, p. 17.

Profitability Analysis

Planning for Profitability, Richard H. Bertholdt, January-February, p. 17.

Improving the Bank Profit Picture, Edwin T. Boyle, January-February, p. 47.

Statistical Decision Theory, Benny R. Copeland, May-June, p. 45.

Better Management Control in the Professional Office, Reginald L. Jones and H. George Trentin, March-April, p. 23.

Profit Performance Concepts and the Product Manager, James D. Wilkinson, July-August, p. 17.

Purchasing

Planning for Profitability, Richard H. Bertholdt, January-February, p. 17.

To Buy or to Make?, Richard M. Burton and H. Peter Holzer, July-August, p. 26.

Analysis of Competitive Bids, W. N. Smith and J. R. McCreight, May-June, p. 40.

The Economics of Using Substitutes or Synthetics as Raw Materials, Robert D. Zemnickas, September-October, p. 33.

Queueing Theory

The Use of Simulation to Solve a Queueing Problem, Richard M. Story, January-February, p. 58.

Real Time Data Processing

New Generation EDP Control Considerations, Robert F. Moloney, March-April, p. 15.

Return on Investment Analysis

Improving the Bank Profit Picture, Edwin T. Boyle, January-February, p. 47.

Decision Models for the Acquisition of Treasury Stock, Edward J. Mock and Donald Hart Shuckett, March-April, p. 49.

Profit Performance Concepts and the Product Manager, James D. Wilkinson, July-August, p. 17.

The Economics of Using Substitutes or Synthetics as Raw Materials, Robert D. Zemnickas, September-October, p. 33.

Sales Analysis

Measurement of Sales Growth, Eugene L. Zieha, November-December, p. 30.

Scheduling

Is PERT/Cost Dead?, Peter P. Schoderbek, November-December, p. 43.

Better Patient Care — Through Electronics, Robert M. Smith, May-June, p. 52.

The Use of Simulation to Solve a Queueing Problem, Richard M. Story, January-February, p. 58.

Simulation

Multi-Programing Computer Evaluation and Management, Charles E. Carlson and Philip C. Semprevivo, September-October, p. 39.

The Use of Simulation to Solve a Queueing Problem, Richard M. Story, January-February, p. 58.

Statistical Analysis

Statistical Decision Theory, Benny R. Copeland, May-June, p. 45.

The Use of Simulation to Solve a Queueing Problem, Richard M. Story, January-February, p. 58.

Measurement of Sales Growth, Eugene L. Zieha, November-December, p. 30.

Statistical Sampling

AICPA Holds Third Computer Conference, Staff Report, Part 2, September-October, p. 52.

Stock Options

Decision Models for the Acquisition of Treasury Stock, Edward J. Mock and Donald Hart Shuckett, March-April, p. 49.

Stock Purchase

Decision Models for the Acquisition of Treasury Stock, Edward J. Mock and Donald Hart Shuckett, March-April, p. 49.

Systems Analysis

Pitfalls in Planning an EDP Installation, Michael R. Moore, September-October, p. 25.

AICPA Holds Third Computer Conference, Staff Report, Part 1, July-August, p. 49.

Time Sharing

See Multi-programing

Travel Expense Control

Computerized Control of Travel Expenses, Michael R. Tyran, May-June, p. 32.

Waiting Line Analysis

The Use of Simulation to Solve a Queueing Problem, Richard M. Story, January-February, p. 58.
